

Christos Sotiriou, MD, PhD, Head of the J.-C. Heuson Breast Cancer Translational Research Laboratory, Institut Jules Bordet, Université Libre de Bruxelles (ULB), Brussels, Belgium; Head of Clinic at the Medical Oncology Department, Institut Jules Bordet; Research Director (tenured position) at the Belgian Fund for Scientific Research – FNRS (October 2017)

Dr. Sotiriou leads a very successful research group that has contributed seminal and practice changing results in Breast Cancer translational research. With over 230 original research publications, he is among the most productive and influential scientists in this research area today.

A widely recognized thought leader, Dr. Sotiriou serves as Chair or Co-Chair of symposia in highly visible international conferences including IMPAKT, ASCO and ESMO. He is a former elected member of the Scientific Council of the International Agency for Research on Cancer (World Health Organization) and an active member of numerous scientific committees.

He is Elected Fellow of the European Academy of Cancer Sciences and Associate Editor for breast cancer of *Annals of Oncology* (ESMO's official journal) since 2014. He has received many prestigious awards – including the 2015 “Joseph Maisin Scientific Prize - Clinical biomedical sciences”, a quinquennial prize awarded by the Belgian F.R.S.-FNRS.
